Barmer, Rajasthan

WORK EXPERIENCE

🔗 **Dheer Software Solutions** | *Full-stack Developer*

April 2025 - Present

- Designing and maintaining user interfaces for real-world projects using technologies like ReactJs.
- Developing robust backend applications using NodeJs for enhanced performance and scalability.

🔗 **Aarvy Technologies** | *Internship* | *Front-End Developer*

June 2024 - Aug 2024

- Developed and maintained Front-end of website using technologies like ReactJs.
- Developed and maintained database and Back-End of website using NodeJs and ExpressJs.

PROJECTS

🔗 **TweetStream** | *Node.js, Express.js, MongoDB, Passport.js, AWS S3*

Dec 2024

- Architected and developed TweetStream, a robust monolithic backend for a Twitter-like application, delivering efficient and scalable tweet management and search functionalities.
- Implemented an advanced tweet search functionality, enabling users to search tweets efficiently based on hashtags.
- Implemented secure user authentication using **Passport.js**, ensuring reliable session management and data protection.

🔗 **Airline Booking Management System** | *NodeJs, ExpressJs, MySQL*

Oct 2024

- Implemented API Gateway to take user queries, which are then routed to various microservices.
- Various microservices include AuthService, FlightAndSearchService, TicketBookingService, ReminderService.
- Implemented JWT and user-role based authentication.
- Integrated **RabbitMQ** (message queue) between the booking and reminder services.
- Used **Cron** to send emails automatically after a 5-minute interval after user placed a reservation.

🔗 **EsKaJi Sweets** | *ReactJs, NodeJs, ExpressJs, MongoDB*

July 2023

- The web application allows admin users to easily manage product inventory by adding, deleting, updating, and fetching products.
- Implemented responsive design principles using CSS media queries and flexible layouts to ensure optimal viewing experiences for users accessing the website on desktops, tablets, and mobile devices.

TECHNICAL SKILLS

Languages: C++, C, Python, HTML, CSS, JavaScript

Developer Tools: Power BI, Microsoft Excel, VS Code

Technologies/Frameworks: SQL, ReactJs, NodeJs, ExpressJs, MongoDB

CERTIFICATES

🔗 **MernStack**

May 2023 - July 2023

- Completed intensive summer training at SSDN Technologies, specializing in MERN STACK, where I gained hands-on experience in creating several projects.
- Acquired proficiency in MERN STACK, learning essential skills such as Reactjs, MongoDB, ExpressJs, Nodejs.
- Developed a variety of projects during the training such as **ESKAJI Sweets**, a Full Stack Website.
